

Go ahead, **SQUEEZE** me I'm easy.

Sore hands are a thing of the past.

Easy Twist and Twist Tight Ties are pre-shaped for a variety of fencing situations. We carry more shapes than anyone else. Installs quickly with our custom power drill bit tool.

- Easy Tensile Strength Design
- Ties for Every Application
- Twists with Drill for Quick Installation

About Our Twist Ties

All twist ties available in four different finishes:

Galvanized - 1.2 or 2 oz. 9 gauge, 2 oz. 6 gauge, and 1.2 oz. 11 gauge.

Aluminized - .4 oz. 9 gauge and .35 oz. 11 gauge.

Vinyl Coated - Black, Woodland Green, Forest or Enser Green, and Brown.

Easy Twist™ Ties

Designed for commercial & some corrections use with 2-inch mesh.

- Tie goes around post & one picket.
- Can be twisted in back or side of post.
- Shaped to fit post/rail without opening tie.
- Ties are pinched together easily & twisted with drill for quick installation.

Easy Twist™

Tension Wire Ties

- Pre-shaped tie goes around fabric & tension wire.
- Tie is twisted with drill.
- Easier on hands than hog rings.
- Stronger than hog rings.
- Helps reduce false alarms with perimeter security devices.

Easy Twist™ T-Post Ties

Designed for 1.33 #/ft. T-post.

- Pre-shaped tie goes around post & wire.
- Tie is twisted to side of post with cordless drill.
- Pays for itself with increased production.

Easy Twist™ C-Post Ties

- Designed for commercial installations with 2" mesh
- Post Sizes: C-Rail, Standard C-Post, Heavy C-Post, and Super C-Post
- Preshaped tie goes around C-Post and one picket
- Tie is twisted to the right or left side of post

Twist Tight® Ties

Designed for correctional installations with 2-inch mesh.

- Pre-shaped to fit around two sides of a diamond to create tighter fabric tension.
- A better bond between tie, fabric & post to reduce problems with electronic surveillance systems.
- Ends twisted opposite fabric, away from inmates.
- Won't fall off before twisting.
- Don't need to be trimmed, eliminating cleanup.

Side Twist Tight® Ties

Designed for correctional, commercial installations with 2-inch mesh.

- Pre-shaped to fit around two sides of a diamond but are twisted on the side of the post to reduce risk of injury to passing personnel.

Mini Mesh Twist Tight® Ties

Designed for smaller mesh sizes (1-inch, 1/2-inch or 3/8-inch)

- Shape designed to be installed through the mini mesh around the post.
- Twist on back side with drill for easy installation.
- Tie ends can be bent down to prevent injury to passing personnel.
