Barbed Wire Dispenser

Stretching barbed wire or tension wire can be a time consuming job. With the Barbed Wire Dispenser from L&C Enterprises-USA, Inc. all three strands of barbed wire and two strands of tension wire can be put in place in half the time. The Barbed Wire Dispenser makes dispensing wire safer and faster.

The Barbed Wire Dispenser easily hooks to a skid-steer. The three rolls of barbed wire are kept separate to prevent tangles. The wire coming out of the upper guide rollers is perfectly spaced at your desired tension to fit in the barbed arms at the top of the posts. You will save an incredible amount of time by dispensing several strands of tensioned barbed wire at the same time.

- Dispenses three rolls of barbed wire and two rolls of tension wire.
- Barbed wire tension is adjustable.
- Dispense barbed wire faster than your competitor.
- Unit is able to carry extra barbed wire or tension wire rolls for easy changing.
- Blasted, primed and painted.

Do you find yourself in a tangled mess? We can straighten you out if you give us a call. Tell us how you currently dispense wire and we will help you find a way to do it better.
