

ROLL A PERFECT

BUNDLE

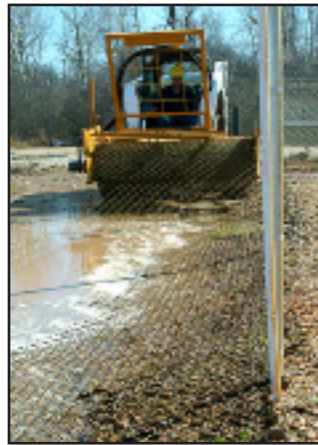

Rapid Roller

The Rapid Roller greatly speeds up the process of rolling up temporary or used fabric at the job site. You will roll a perfect roll every time making it appealing for resale. The rolls are also easy to store for later use or disposal.

The Rapid Roller handles 5 foot to 8 foot fabric and with the longer adjusting arm will roll fabric up to 12 feet high. Simply cut the fabric from the posts, hook it to the Rapid Roller and wind up the fabric. No rolling by hand or uneven rolls. You can roll up to 100 feet of fabric in just a few minutes. If the fabric is short, hog ring the next fabric to the roll and continue rolling. The Rapid Roller easily attaches to a skid-steer. You can roll fabric in difficult areas, even high grass. Shake leaves and debris free by raising the fabric in the air. Designed by fencers who know the business, you will wonder why you ever rolled fabric by hand before.

Safe to Operate

Roll in Difficult Areas

- Safety Guide prevents accidental operations.
- Roll speed adjusts as bundle increases.
- Side Assembly easily adjusts to different fabric heights.
- Blasted, primed and painted.

Do you find it difficult to roll fabric by hand? We can show you how much easier it is with the Rapid Roller. Give us a call.
