

FILL POSTS HOLES

EASILY

Danuser Auger Bucket

Reach hard to maneuver fence lines with the Danuser Auger Bucket. There is no need to wheelbarrow and shovel concrete to post holes that are difficult to reach. The Auger Bucket fills holes quickly and without spillage.

Quick-tach mounts on the front and back of the Auger Bucket allows you to hook up to a skid-steer for right or left hand discharge. Fill the Auger Bucket with up to **3/4 yard with standard extension** and easily fill post holes. Turning the auger forward discharges the material. There are three augers to choose from —concrete dispensing auger, mixing dispensing auger and the sand dispensing auger for filling sand bags. Cleaning is easy. Run the auger until all of the concrete material is gone and spray with a hose.

Pouring cement shouldn't take a lot of time. We can help you speed up the process. Give us a call. It's easy to put up fence posts with the Danuser Auger Bucket.

Auger Bucket Features at a glance

Highlights	Auger	Capacity	Possible Uses
<ul style="list-style-type: none"> • Quick-tach hookup • Left or right discharge • Easy cleanup • One person operation 	Concrete Dispensing Mixing Dispensing Sand Dispensing	3/4 yard with standard hopper extension	Formwork, Concrete, Landscaping, Fencing, Pot Hole Filling, Sand Bag Filling

“We’ve replaced the wheelbarrow and shovel.”
