# The L&C Difference

Proudly designed and manufactured in the Upper Peninsula of Michigan

With more than **30 years** spent innovating and manufacturing equipment and products for the fence industry, our depth of experience is what guides us at **L&C Enterprises**. We pass that experience along to our customers with every product we produce. Always tested by real fence crews, our products are proven to work, and **we are always looking to improve efficiency in fence installation.**

The industry changed dramatically when we invented the **Installink Fence Dispenser**. We made chain link more secure with the design of **Twist Tight Fence Ties**. We saved time and made installation of three strands of barbed wire safer with the development of the **Barbed Wire Dispenser**. Our experience also determines what fencing equipment and products we recommend. We offer products we know will benefit your company such as the **Rapid Roller** and the **Lobo Post Puller**.

**LOBO Extreme  
Post Puller**

## The L&C Promise

**OUR EQUIPMENT WILL INCREASE YOUR PROFITS.**

It's important to work efficiently to make a profit. We've been installing fence for more than three decades. Along the way, we discovered better ways to get the job done – and we're willing to share our secrets with you. Take a look at the equipment and fence ties we have available and then give us a call.

# Fence Rollers & More

Double your productivity in half the time

**DISPENSE WIRE IN HALF THE TIME**

## Barbed Wire Dispenser

The Barbed Wire Dispenser manufactured at L&C Enterprises dispenses three strands of barbed wire or two strands of tension wire in **half the time**. The upper guide rollers perfectly space three strands of barbed wire to prevent tangles and fit the dimensions of the barbed arms at the top of the posts. You can control and adjust the tension for the ideal fit.

BARBED WIRE DISPENSER: \$10,xxx.xx

**GET A PERFECT ROLL EVERY TIME**

## Rapid Roller

The Rapid Roller greatly speeds up the process of rolling up temporary or used fabric at the job site. It rolls a **perfect roll every time**, making it appealing for resale. The rolls are also easy to store for later use or disposal. The Rapid Roller handles 5-8 foot fabric, but it can also be extended with a longer adjusting arm to roll fabric up to 12 feet.

RAPID ROLLER: \$7,xxx.xx

**DOUBLE YOUR FENCING OUTPUT**

## Installink

The Installink Fence Dispenser has been the industry leader in chain link fence dispensing. Designed by fencers at L&C Enterprises, the Installink will **double your output with half the crew**. The cage holds 100 foot rolls of chain link or up to 700 lbs. The stretching arm pulls the fabric tight.

INSTALLINK 8': \$6,xxx.xx

INSTALLINK 10': \$7,xxx.xx

# Professional Fence Ties

Keeping your fence safe and secure.

## Easy Twist Ties™

Easy Twist Ties™ are shaped to fit around a post and one picket without opening the tie. They pinch together easily and twist with a drill bit tool for quick installation. Plus, the tails don't get caught in the tool. How many ties can you twist in an hour? Give us a call.

- High Quality Pre-Formed Steel Ties
- Commercial, Industrial and Military Applications
- Quick Installation
- Twist in any Direction with Custom Drill Bit Tool

Easy Twist Ties™ can easily be purchased directly from our distribution partners. Call us or visit [LCEnterprises-USA.com](http://LCEnterprises-USA.com) to find the distributor nearest you!

## Twist Tight Ties™

Twist Tight Ties™ are pre-shaped for a variety of fencing situations, making them ideal for security applications. The ends are twisted opposite the fabric, making the ties difficult to take off. Yet, they're easy to install with our custom drill bit tool.

- High Quality Pre-Formed Steel Ties
- High Security Applications such as Prisons, Correctional Facilities or Power Plants
- Secure, Tamper-Proof Twist with Custom

"Perfect for solar projects, municipalities, airports, baseball fields, and more!"

## Steel Easy Twist Ties Meet ASTM International Standards

New ASTM International standard specifications for fence fittings require a round wire tie to wrap around the post and fabric and be secured with two 360 degree wraps. When the tie is tightened, the fabric should be pulled to the post.

# LOBO Post Puller

Quick and simple operation

## LOBO Post Puller

The LOBO Post Puller offers **exceptional pulling force and visibility for quick operation**. Operated by one person, it speeds up the process of removing posts in a variety of shapes. Its wide base lets you remove up to 8 1/2-inch posts with concrete up to 23 inches in diameter. Round, square, T-shaped – **the Lobo Post Puller can handle any post**.

The **LOBO Post Puller** lets you pull an unprecedented average of two posts per minute. It clamps the post and lifts it out of the ground with a breakthrough pulling force of 17,000 lbs. You no longer need to chain and unchain fence posts to loaders. Simply grab the post with the **LOBO Post Puller** and release it to discard.

LOBO POST PULLER: \$7,xxx.xx

- **V-Jaw pulls round fence posts.**
- **Camp Jaws will pull T-posts and H-posts such as guardrails.**
- **Built to fit any skid steer.**
- **Pulls wood or steel posts in seconds!**

**Pulling a post with the LOBO is an easy 1-2-3.**

**Proud supporter  
of United States  
Armed Forces**

# Customer Testimonials

Hear from satisfied clients across North America.

"As an owner of the **Barbed Wire Dispenser**, I cannot be more pleased with the increased production our crews have experienced when using this unit. The other day I sent a two-man crew out on a job that I figured would take eight hours to complete. I was shocked when the foreman called me to ask what else I wanted them to do as the job had only taken two hours to complete! I had neglected to factor in the **Barbed Wire Dispenser** versus the old way we used to run barbed wire."

- Robby Cearley

"**The Rapid Roller saves us at least 50 percent in labor costs** compared to rolling up chain link without one. This unit allows us to get in tight spots and still roll up the chain link. I know it helps prevent back injuries. The **Rapid Roller** helps make us more competitive, which can really make a difference on prevailing wage jobs."

- Jeniene Blatt

"The **LOBO Post Puller** has completely changed the way we approach fence posts and footer removal. Since purchasing this piece of equipment, **we have yet to find a post that we cannot pull.**"

- Jeffrey M. Zwergel

"We source our materials from reputable companies across the United States so you can rest assured that you'll be receiving a product crafted with top-notch quality in mind. We have real people waiting to answer any questions you may have, so give us a call and one of our friendly team members will be there to assist you during business hours." **Kevin Sodermark, L&C Enterprises-USA**
